KANSAS CITY EXPERIENCES PENAL-TIES OF BEING A METROPOLIS.

Clever Work of Police Succeeds in Bringing Many Criminals to the Bar of Justice-A Cont Led to Arrest of Two Al-

Burglars and sneakthieves have been unusually active during the past twenty-four Judging from the numerous reports of robberles that reach police headquarters ost every day, business is much too brisk in their line for them to take a vacation this summer. In fact, they appear to be working overtime. The police congratulated themselves last winter that Kansas City was not subjected to a reign of footpaddism, but what the footpads overlooked last winter the enterprising sneakthlef and housebreaker are going after this sum-

Two negroes were frightened away from the home of Dr. Mabel Spencer, at 1334 Broadway, last Friday morning, and two men who answered their lescription were apprehended yesterday afternoon by Sergeant Wid Murphy and Officers Ryan and Coughian. A coat which was dropped in Dr. Spencer's bedroom while making a hurried flight from the building furnished the clue that led to their arrest. In the pockets of the garment was a pawn ticket for a coat which had been pawned with H. Cohn. a pawnbroker in Kunsas City, Kas. From the latter Detectives Sanderson and Schulz secured a description of the person who se-cured a loan on the coat, and it was on the strength of this description that two negroes giving their names as Albert Jackson and George Morton were arrested. Both were locked up until a warrant can

Hofling knocked her down as she was trying to make her escape and Officer West arrested them both. Hofling was released later, but the Gordon woman was charged with street walking. She has served several sentences in the workhouse. B. F. Akers, the proprietor of a lunch wagon, was on his way to his home at 46! West Fifth street at 3:39 o'clock yesterday morning when a negro woman halted him and relieved him of \$5, which represented his night's receipts. The woman afterwards made her escape. One of the women lives at 1307 Walnut and the other on Baltimore avenue between Tenth and Eleventh streets. When the police interviewed them they said that the shirt waists had been given to them by a negro named John Payne, who rooms at \$11 Grand avenue. She was still mad when she was arraigned in the police court yesterday morning and she waded into Judge Spitz. She called him vile names and threatened to lift his scalp with a razor if he did not remit the line. Judge Spitz, without a waste of words, added \$25 more to the prisoner's fine. REPUTABLE COLORED BUSINESS MEN SCORE CHIEF OF POLICE HAYES.

Say That Hell's Half-Acre Can Be Cleansed of Dives and Criminals if the Police Will Do Their Duty.

In the block on Grand avenue, from Independence avenue south to Sixth street recently dubbed by the police, "Hell's Half Acre," a number of men conduct reputable businesses. They admit that tough characters haunt the district and that often rowdyism is rampant, but they insist that drunkenness and disorderly conduct, as it is within the power of the police to told in The Journal Sunday, were sen- cleanse it of the criminal element, and are ready to assist in any crusade that may be planned in that direction . These reputable usiness men became indignant when they Lena Bruns and Katie Brumbaugh are read in The Journal yesterday Chief Hayes views anent the district.

"The police are not powerless," said their spokesman, J. W. Gordon, a colored man who conducts the Palace hotel, at 554 Grand ivenue, to a reporter for The Journal. "The gambling clubs have been raided out of existence, and there is no reason why in-dividual transgressors of the law cannot e driven away or punished. They have no money, as a rule, and their friends are of the butterfly variety. A few arrests and onvictions would go far towards remedying the evil complained of by the chief, and the decent element will render all the assistance in its power. To say that Grand avenue, from Independence avenue to Sixth street, is the worst block in the city is an outrage. The conditions are better there than in Hick's hollow, Belvidere hol-low, Eighteenth street and other places, yet we do not hear of those places being condemned. We admit bad characters fre-quent the block, and that fights are com-mon but can any one expect conditions to quent the block, and that fights are common, but can any one expect conditions to be different when policemen hobnols with lewd women and drink openly in the saloons there? At the corner of Independence and Grand Avenues is one of the toughest saloons in Kansas City. Women frequent the place and policemen make themselves at home there. What we want is a square deal, not criticism that hurts every person on the block and indirectly every resident in that section of the city. If the police will only do their duty the evils complained of will soon cease to exist."

From another source it was learned that the respectable colored element of the city will organize for the sole purpose of abating the dens of infamy operated by members of their race in different sections of the city. The suppression of negro gambling clubs was due solely to the efforts representative colored men and not to of representative colored men, and not to he police, and it is believed that a sucessful crusade can be inaugurated against the keepers of dens which the chief of the metropolitan police force says he can not cope with successfully.

Some shoe men buy shoes according to the way the maker makes them. Our shoe makers make shoes the way we buy them. That's why you never find a cheat in a Nebraska shoe. We specify what sort of stock-linings-stitching-counterinsole-box-heel and sole shall go into a Nebraska shoe, and we get them that way because we pay for what we get. It's an easy matter to cut the cost of a shoe where it won't showbut an inside cheat will show when wear comes. A few cents off the sole-molded counters in place of sole leather-short vamp under the tip-poor insoles and poor linings will reduce the cost of a shoe 25c to 50c, and you can't see it.
